HYDRO 2024 SUMMER SCHOOL June 29th to July 13th – Lille, France

'Water Resource Management: From Rock to Remediation'

The Hydro 2024 summer school is a high-standard 60-hour training programme that delves into the fundamental aspects of hydrogeology and water treatment.

Coorganised by the <u>Faculty of Science and Technology</u> of the <u>University of Lille</u> (largest French university) and the <u>International Academy</u> (summer university for international students in Hautsde-France), Hydro 2024 will take place in Lille from <u>June 29th to July 13th</u>.

Rock your future!

Midway between Paris, London and Brussels, at the heart of a high-performance academic and economic hub that makes innovation a priority, the programme will offer high-level scientific lectures delivered in English by renowned researchers in the field, and a lead into research through a supervised project assessed by an oral defence.

ECTS: 5 credits

Challenge your scientific potential!

As a research-oriented programme, the summer school is dedicated to excellent bachelor (3rd year undergraduate) & Master students willing to network into their PhD or postdoc in France. PhD students & professionals are welcome to apply. The participants should have an advanced level of English proficiency as well as excellent academic results and in-depth knowledge in hydrology & chemistry, and basic knowledge of geology.

#Keywords

Hydrogeology, groundwater modelling, hydrogeochemistry, wastewater treatment, rainwater management, water resource policy, pollution.

Willing to get a peek into French culture and language or rediscover it?

Visits and events will immerse the participants in France's youngest region, renowned for its competitiveness, dynamic cultural and social life, and a unique blend of Flemish cheerfulness and French elegance.

Willing to broaden your international experience under enjoyable conditions with fellow students worldwide?
